

Dear Valued Donor,

I am writing on behalf of the American Society of Civil Engineers at the University of South Alabama (USA-ASCE) to request your support of our organization.

USA-ASCE is a non-profit student-led organization of civil engineering students at the University of South Alabama whose mission is to increase student interest and involvement within the civil engineering discipline through community outreach, social and professional interaction, leadership opportunities, and education. To accomplish this, our student chapter, along with 15 others from surrounding universities, participates in the annual ASCE Gulf Coast Student Symposium.

The students who attend this conference gain valuable experience in leadership, technical engineering, project management, budgeting, and team building through various competitions. The Symposium will be hosted by the University of New Orleans this year. In order to raise funds to travel and participate in this symposium, USA-ASCE is hosting its annual Golf Tournament on October 27th, 2023 at Spring Hill College Golf Course.

You are invited to support the students by contributing a prize, gift card(s), cash donation, or becoming a title or hole sponsor for our event. Depending on the amount of support, we will have team prizes, raffle prizes, a silent auction, and provide gift bags to all players. No donation is too big or too small! All donors will be advertised and recognized during the tournament. Hole sponsors will have signage at their designated hole and title sponsors will have signage both at the registration table and the tournament leaderboard.

You are also welcomed to participate in the Golf Tournament with a team of your own, individually, or by sponsoring student players. **The Tournament Flyer with all relevant information is attached.** Any donations can qualify as a tax write-off. A W-9 can be provided upon request.

If you wish to make a donation, have any questions regarding donations, or need further information regarding our organization, feel free to contact me at (251)-979-8142 or er1822@jagmail.southalabama.edu.

On behalf of my fellow USA-ASCE members, thank you in advance for your support and consideration.

Sincerely,

Eddie Rodriguez
Civil Engineering Senior
