

LANGUAGES

English (TOEFL-94/120)
Urdu (national language of Pakistan)
Pushto (native language)

TECHNICAL SKILLS

- AutoCAD
- Synchro

CERTIFICATIONS

- 77-442: MOS: Microsoft Office PowerPoint 2013
- 77-418: MOS: Microsoft Office Word 2013

PUBLICATION

Conference Paper – 1st Conference on Sustainability in Civil Engineering August 2019

- Effect of PVA on Rubberized Concrete

WORKSHOPS

June 13th, 2020

- Financing Projects under the Belt and Road Initiative.

December 8th, 2018

- Industrial Safety Techniques

EXTRACURRICULARS

Spring 2017 – Spring 2019

- University Soccer Team

MUHAMMAD REHAN SADIQ

☎ (337)504-8372 ✉ c00480269@louisiana.edu 📍 2509 Johnston St | Lafayette, Louisiana

OBJECTIVE

A highly self-motivated and ambitious Civil Engineer with good leaderships and organizational skills. Possesses excellent interpersonal and communication skills.

EDUCATION

University of Louisiana at Lafayette

January 2021- December 2022

M.S. Civil Engineering

Bachelor of Science in Civil Engineering

CGPA 3.63

RESEARCH EXPERIENCE

Graduate-Research - University of Louisiana- Lafayette

January 2021-December 2022

- Creating a research plan and investigating the strength of asphalt matrix with PVA fibers.
- Fabricating samples at different design matrices for DSR and BBR testing.
- Analyzing data and accumulating results for a paper.

Undergrad-Research – COMSATS University Islamabad, Abbottabad Campus

August 2020-July 2021

- To address the mechanical and rheological properties of PVA-rubberized concrete.
- Performed acid attack test to analyze the durability of concrete.

WORK EXPERIENCE

Graduate Teaching Assistant

January 2021- December 2022

- With Russel C. Hibbeler (*January 2021 - Present*)
- With Mohammad j. Khattak in Geotech lab (*January 2021 – May 2021*)

Survey Camp

Summer 2018 (One month)

- Road Survey with Cut Fitting
- Field Contouring

Intern – NESPAK (PVT.) LTD – Lahore Orange Line metro Train Project

February 2018 – March 2018

- Worked at different offices with consultant.
- Performed Pile Integrity tests (PIT)
- Supervised field work

Intern – HABIB CONSTRUCTION SERVICES (PRIVATE) LIMITED

December 2017 – February 2018

- Worked with geotechnical engineers for piling work.
- Worked with structural engineers for structure work at cut & cover and viaduct section.
