Are you currently a civil engineer?

I understand the message you're trying to send but I'd rephrase a few of the lines. (Think of this as "telling a story" about yourself)

Seeking to excel as a civil engineer

For all the work experience use past tense to describe what you did in the past

Prepared. Not "to Prepare"

provided...

like what? Be specific.

These 2 can be 1 bullet point.

SPELLING!!!!

Don't use the same verb twice. Especially right after each other.

mold?

again, what does this mean? Perhaps: "Supervised all aspects of construction for the competition, including constructing the mold and the canoe"

not sure what 8.31 is out of? I'm used to seeing out of 4.0.

it's not common to put your high school information unless it's top tier (This may be. I don't know)

try not to use the same verb twice. Perhaps you oversaw? Managed?...

details? Distributing what? How many members?

what does this mean?

Keep your resume under one page.

This should be after education (see note above)

Are these titles or questions? Not sure what any of these mean... I would leave out most of this section if it's not relevant or confusing. Perhaps format these awards in a way that's easier for the reader to understand quickly.

see above comment about "to"
