I would remove Skype since that is a communication platform. I would also suggest moving your LinkedIn profile under your Contact section as a hyperlink instead of a QR code. Hyperlink is much easier to navigate and pull up your profile on a computer.

- Understand drafts, flowcharts

I would remove your birth date

~~CIVIL ENGINEER~~

I would remove "Civil Engineer" since you have an objective statement below

ABOUT

Highly motivated individual associated with roles and responsibility with clear understanding regarding civil engineering. Seeking a career in internationally growing organization where I can utilize my knowledge and skills for growth of organization. To apply ideas & competence which would enable the students like me to grow while fulfilling organization goals .

I would revise your objective statement to include what type of position you're looking for (intern or entry-level) and what discipline of civil engineering you're interested in (structural, transportation, land development, water resources/environmental, geotechnical, construction)

WORK EXPERIENCE

ENGINEERING INTERN

InfoTrax Engineering Sdn Bhd | June 2019 - Dec 2019

Project: MLNG Plant Modelling and BIM

- Point cloud data optimization.
- Point cloud data conversion to as-build model.
- Generating detailed design from point cloud data.

Project: Designing Petrol Station

- Detailing from point cloud data into Revit.
- Designing Archi, MEP of the station.

You have some extra room to expand on your internship experience. I would suggest being more specific and adding more responsibilities that you did. Also, be sure to write these in the past tense since this happened in 2019
