PROJECTS

Cetus Bridge [11/2021 – Current]

I started a small team with my friends from within my school by assuming the responsibility of team leader in a period for the 15th International Student Steel Bridge Competition of Boğaziçi University. As a result of hard work with my team, we managed to participate in the competition by a displacement of 0.56 mm with 81.5 kilograms which are less than half of the mass specified according to the rules (The result of the competition will be announced in May).

SKILLS

Problem Solving / Analytic Thinking / Technical design- Autodesk AutoCAD / SAP2000 / Sta4CAD / Microsoft Excel / Microsoft Word / Microsoft PowerPoint / Python

VOLUNTEERING

Saving Children

[İstanbul - Ağrı / Turkey, 02/2018 — 03/2018]

Coats, boots and clothes were provided for the children who go to school in a village in Ağrı against difficult winter. To provide this assistance, ornamer  products were purchased as capital. I took part in sales and packaging positions voluntarily.
