

The following awards are presented at the Florida Section ASCE's Annual Conference. It is not mandatory that an award be granted at intervals defined by the rules. If there is no suitable candidate the award committee may choose not to award a category. A concerted effort shall be made to keep the recipient anonymous prior to the presentation of the award. Any nominee shall be a member in good standing of the Florida Section of ASCE.

Engineer of the Year Award:

Honors an engineer who, through their activities and endeavors, has attained significant professional achievement to society and the engineering profession.

Young Engineer of the Year Award:

Honors a younger member engineer (35 years and younger) who, through their activities and endeavors, has attained significant professional achievement to society and the engineering profession.

Government Engineer of the Year Award:

Honors a government engineer who, through their activities and endeavors, has attained significant professional achievement to society and the engineering profession.

Branch of the Year Award:

Recognizes the Branch that has provided consistently excellent programs and activities throughout the year.

Project of the Year Award:

Honors a project with engineering efforts in research, design, construction or management.

Student of the Year Award:

Awarded to an outstanding civil engineering student as selected by the Student Activities Committee.

Student Outstanding Service of the Year Award:

Awarded to an undergraduate civil engineering student with outstanding service as selected by the Student Activities Committee.

Graduate Student of the Year Award:

Awarded to an outstanding civil engineering graduate student as selected by the Student Activities Committee.

Faculty Advisor of the Year Award:

Awarded to a Faculty Advisor who has provided outstanding leadership to their student chapter and contributed to the future of the Society.

President's Award:

An Award presented by the Florida Section President for outstanding service to the Section.

Byron Spangler Award:

Recognizes an engineer that has achieved special lifetime accomplishments in engineering and public service. This award is given intermittently, at the discretion of the Board, when a member of the Section has achieved such accomplishments.

2015 Annual Awards

Engineer of the Year Award

- Purpose:** To recognize an outstanding Civil Engineer for their achievements over the past year.
- Award:** The Award shall consist of a plaque suitably inscribed, to be presented at the Section Annual Meeting.
- Selection Procedure:** The Florida Section encourages each Branch to recognize a Engineer of the Year. Possibly through its Branch awards program and submit that recipient for consideration for Section Engineer of the Year; however, no Branch may submit more than one nominee.

The nomination package shall not exceed a total of five pages, including the Nomination Form (first page).

Deceased persons are not eligible for nomination to the award, although the award can be posthumously made to a nominee whose petition has reached the Awards Committee during their lifetime. Only one recipient shall be named in any year. Section Officers are not eligible to receive this award while serving on the committee and for one year after.

The Chairman of the Awards Committee will solicit nominations for Engineer of the Year and provide members of the committee with copies for review and ranking. The Chairman will advise the Board no later than July 1 that a nomination has been selected to receive the award. The Chairman shall be responsible for obtaining the award plaque, with the assistance of the Section office. The Chairman shall also be responsible for encouraging the award recipient to attend the annual meeting where the award will be presented.

This competition serves to acquaint the public with activities and achievements of Government Civil Engineers. Within the Branch area, publicity can be obtained by supplying information on the individual to newspapers and broadcasters. It should be emphasized that the local achievement is part of a Section competition conducted by the American Society of Civil Engineers. The Florida Section will publicize all nominations made.

- Selection Criteria:** This recognition is awarded to a nominee who is judged to have contributed substantially to the status of the engineering profession by:
- Personal character, integrity, and public image above reproach;
 - Achievements and distinction in a technical field and mode of practice (government, education, industry, and private practice);
 - An established reputation for service to ASCE and the engineering profession;
 - An established reputation for civic, community, and public activities and responsibilities;
 - Significant contribution toward improving the professional aspects of civil engineering education;
 - Professional guidance of qualified young people who seek civil engineering as a career; and professional development of young civil engineers in the formative stages of their careers; or
 - Other evidence of merit, which, in the judgment of the Awards Committee, shall have advanced the Society's professional objectives.

2015 Annual Awards

Young Engineer of the Year Award

- Purpose:** To recognize an outstanding Young Civil Engineer for their achievements over the past year.
- Award:** The Award shall consist of a plaque suitably inscribed, to be presented at the Section Annual Meeting.
- Selection Procedure:** The Florida Section encourages each Branch to recognize a Young Engineer of the Year. Possibly through its Branch awards program and submit that recipient for consideration for Section Young Engineer of the Year; however, no Branch may submit more than one nominee.

The nomination package shall not exceed a total of five pages, including the Nomination Form (first page).

Deceased persons are not eligible for nomination to the award, although the award can be posthumously made to a nominee whose petition has reached the Awards Committee during their lifetime. Only one recipient shall be named in any year. Section Officers are not eligible to receive this award while serving on the committee and for one year after.

The Chairman of the Awards Committee will solicit nominations for Young Engineer of the Year and provide members of the committee with copies for review and ranking. The Chairman will advise the Board no later than July 1 that a nomination has been selected to receive the award. The Chairman shall be responsible for obtaining the award plaque, with the assistance of the Section office. The Chairman shall also be responsible for encouraging the award recipient to attend the annual meeting where the award will be presented.

This competition serves to acquaint the public with activities and achievements of Government Civil Engineers. Within the Branch area, publicity can be obtained by supplying information on the individual to newspapers and broadcasters. It should be emphasized that the local achievement is part of a Section competition conducted by the American Society of Civil Engineers. The Florida Section will publicize all nominations made.

- Selection Criteria:** This recognition is awarded annually to members who 35 years of age or younger on February 1 in the year of the award, and who is judged to have contributed substantially to the status of the engineering profession by:
- Personal character, integrity, and public image above reproach;
 - Achievements and distinction in a technical field and mode of practice (government, education, industry, and private practice);
 - An established reputation for service to ASCE and the engineering profession;
 - An established reputation for civic, community, and public activities and responsibilities;
 - Significant contribution toward improving the professional aspects of civil engineering education;
 - Professional guidance of qualified young people who seek civil engineering as a career; and professional development of young civil engineers in the formative stages of their careers; or
 - Other evidence of merit, which, in the judgment of the Awards Committee, shall have advanced the Society's professional objectives.

2015 Annual Awards

Government Engineer of the Year Award

- Purpose:** To recognize an outstanding Government Civil Engineer for their achievements over the past year.
- Award:** The Award shall consist of a plaque suitably inscribed, to be presented at the Section Annual Meeting.
- Selection Procedure:** The Florida Section encourages each Branch to recognize a Government Engineer of the Year. Possibly through its Branch awards program and submit that recipient for consideration for Section Government Engineer of the Year; however, no Branch may submit more than one nominee.

The nomination package shall not exceed a total of five pages, including the Nomination Form (first page).

Deceased persons are not eligible for nomination to the award, although the award can be posthumously made to a nominee whose petition has reached the Awards Committee during their lifetime. Only one recipient shall be named in any year. Section Officers are not eligible to receive this award while serving on the committee and for one year after.

The Chairman of the Awards Committee will solicit nominations for Government Engineer of the Year and provide members of the committee with copies for review and ranking. The Chairman will advise the Board no later than July 1 that a nomination has been selected to receive the award. The Chairman shall be responsible for obtaining the award plaque, with the assistance of the Section office. The Chairman shall also be responsible for encouraging the award recipient to attend the annual meeting where the award will be presented.

This competition serves to acquaint the public with activities and achievements of Government Civil Engineers. Within the Branch area, publicity can be obtained by supplying information on the individual to newspapers and broadcasters. It should be emphasized that the local achievement is part of a Section competition conducted by the American Society of Civil Engineers. The Florida Section will publicize all nominations made.

- Selection Criteria:** This recognition is awarded annually to members who are employed by a government agency (federal, state, local, etc), and who is judged to have contributed substantially to the status of the engineering profession by:

- Personal character, integrity, and public image above reproach;
- Achievements and distinction in a technical field and mode of practice;
- An established reputation for service to ASCE and the engineering profession;
- An established reputation for civic, community, and public activities and responsibilities;
- Significant contribution toward improving the professional aspects of civil engineering education;
- Professional guidance of qualified young people who seek civil engineering as a career; and professional development of young civil engineers in the formative stages of their careers; or
- Other evidence of merit, which, in the judgment of the Awards Committee, shall have advanced the Society's professional objectives.

2015 Annual Awards

Branch of the Year

- Purpose:** To recognize an outstanding Branch for their achievements over the past year. The Florida Section encourages all Branches to seek the Branch of the Year Award
- Award:** The Award shall consist of a plaque suitably inscribed, to be presented at the Section Annual Meeting.
- Selection Procedure:** Branches have the freedom to select the format and content of their nomination package and Branches are encouraged to focus on what it considers the strength of the Branch. Smaller Branches may want to emphasize their activities as a function of the total number of members in the Branch.
- The nomination package shall not exceed a total of five pages, including the Nomination Form (first page).
- The Chairman of the Awards Committee will solicit nominations for Branch of the Year and provide members of the committee with copies for review and ranking. The Chairman will advise the Board no later than July 1 that a nomination has been selected to receive the award. The Chairman shall be responsible for obtaining the award plaque, with the assistance of the Section office. The Chairman shall also be responsible for encouraging the president of the winning Branch to attend the annual meeting where the award will be presented.
- Selection Criteria:** Areas of activities in which the Branch was successful may include:
- Professional and technical activities;
 - Social activities;
 - Civic activities;
 - Support of Student Activities;
 - Membership development and retention;
 - Newsletters and Publications;
 - Public Relations;
 - Younger Member Groups;
 - Government Relations;
 - Other strengths of the Branch.

2015 Annual Awards

Project of the Year

- Purpose:** To recognize outstanding civil engineering achievements in a Branch's geographic area and submit projects for consideration by the Awards Committee for the Section Project of the Year Award.
- Award:** The Award shall consist of a plaque suitably inscribed, to be presented at the Section Annual Meeting.
- Selection Procedure:** All nominees for consideration for Section Project of the Year Award must be submitted by a Branch and must be a predominantly civil engineering project within the geographic boundary of the Branch.
- The nomination package shall not exceed a total of five pages, including the Nomination Form (first page).
- The Chairman of the Awards Committee will solicit nominations for Project of the Year and provide members of the committee with copies for review and ranking. The Chairman will advise the Board no later than July 1 that a nomination has been selected to receive the award. The Chairman shall be responsible for obtaining the award plaque, with the assistance of the Section office. The Chairman shall also be responsible for encouraging the owner of the project and the civil engineer of record to attend the annual meeting where the award will be presented.
- Selection Criteria:** The award will be based on the civil engineering excellence according to the following guidelines:
- Innovative application of new or existing technology: 25%
 - Future value to the engineering profession: 20%
 - Social and economic considerations: 15%
 - Complexity of the project: 20%
 - Exceeding client needs: 20%

2015 Annual Awards

Student of the Year Award

Purpose: To recognize a civil engineering student who has made a contribution to the civil engineering profession through outstanding service as well as leadership and academic achievement.

Award: The Award shall consist of a plaque suitably inscribed and a monetary award of an amount approved by the Board of Directors. The Award shall be given at the Annual Meeting.

Selection Procedure:

Each Branch having a Student Chapter(s) within its jurisdictional area may nominate one student to the Section Student Activities Committee per Student Chapter. Selection of the nominee shall be made in cooperation with the Student Chapter advisory personnel and the civil engineering faculty and shall be endorsed by the appropriate Branch President. The nomination shall be submitted on the standard forms.

The Student Activities Committee shall evaluate the nominations in accordance with the criteria contained herein. The individual point tabulations and evaluations shall remain confidential.

Selection Criteria:

In order to be eligible for nomination, the person shall:

- Be a full time undergraduate student in civil engineering, as defined in the school catalog;
- Be a current dues-paying member of a Student Chapter located within the Florida Section;
- Have at least a 2.5 grade point average (based on a maximum of 4.0) in the civil engineering curriculum.
- Be a member of the Student Chapter for more than one academic year.

Selection will be based on a point system.

The maximum number of points that can be awarded for each category shall be as follows:

Student Chapter Service

- | | |
|---|------------------|
| • Officer | 10 points |
| • Committee member | 10 points |
| • Activities (conference activities, service projects, presentations, intramurals, Branch and Section meetings, field trips, Chapter socials, etc.) | 40 points |
| Subtotal | 60 points |

Other Service Activities

- | | |
|---|------------------|
| • University (student government, Engineering Fair, Tau Beta Pi, FES, tutoring, consultant, etc.) | 20 points |
| • Other (civic, church, etc.) | 10 points |
| Subtotal | 30 points |

Academic Achievement

- | | |
|---|------------------|
| • GPA, standing within class, Dean's list, scholarships, other academic recognition | 10 points |
| Subtotal | 10 points |

MAXIMUM POINT TOTAL: **100 points**

2015 Annual Awards

Student Outstanding Service of the Year Award

Purpose: To recognize a civil engineering student who has made a contribution to the civil engineering profession through outstanding service as well as leadership and academic achievement.

Award: The Award shall consist of a plaque suitably inscribed and a monetary award of an amount approved by the Board of Directors. The Award shall be given at the Annual Meeting.

Selection Procedure:

Each Branch having a Student Chapter(s) within its jurisdictional area may nominate one student to the Section Student Activities Committee per Student Chapter. Selection of the nominee shall be made in cooperation with the Student Chapter advisory personnel and the civil engineering faculty and shall be endorsed by the appropriate Branch President. The nomination shall be submitted on the standard forms.

The Student Activities Committee shall evaluate the nominations in accordance with the criteria contained herein. The individual point tabulations and evaluations shall remain confidential.

Selection Criteria:

In order to be eligible for nomination, the person shall:

- Be a full time undergraduate student in civil engineering, as defined in the school catalog;
- Be a current dues-paying member of a Student Chapter ;
- Have at least a 2.5 grade point average (based on a maximum of 4.0) in the civil engineering curriculum.
- Be a member of the Student Chapter for more than one academic year.

Selection will be based on a point system.

The maximum number of points that can be awarded for each category shall be as follows:

Student Chapter Service

- | | |
|---|------------------|
| • Officer | 10 points |
| • Committee involvement | 10 points |
| • Other Activities (conference activities, service projects, presentations, intramurals, Branch and Section meetings, field trips, Chapter socials, etc.) | 45 points |
| Subtotal | 65 points |

Other Service Activities

- | | |
|--|------------------|
| • University (student government, Engineers Fair, Chi Epsilon, Tau Beta Pi, FES, tutoring, consultant, etc.) | 20 points |
| • Other (civic, church, etc.) | 10 points |
| Subtotal | 30 points |

Academic Achievement

- | | |
|---|-----------------|
| • GPA, standing within class, Dean's list, scholarships, Other academic recognition | 5 points |
| Subtotal | 5 points |

MAXIMUM POINT TOTAL:	100 points
-----------------------------	-------------------

2015 Annual Awards

Graduate Student of the Year Award

Purpose: To recognize a civil engineering graduate student who has made an outstanding leadership and service contribution to the civil engineering profession by their participation with the Student Chapter.

Award: The Award shall consist of a plaque suitably inscribed and a monetary award of an amount approved by the Board of Directors. The Award shall be given at the Annual Meeting.

Selection Procedure:

Each Branch having a Student Chapter(s) within its jurisdictional area may nominate one student to the Section Student Activities Committee per Student Chapter. Selection of the nominee shall be made in cooperation with the Student Chapter advisory personnel and the civil engineering faculty and shall be endorsed by the appropriate Branch President. The nomination shall be submitted on the standard forms.

The Student Activities Committee shall evaluate the nominations in accordance with the criteria contained herein. The individual point tabulations and evaluations shall remain confidential.
