All Island 1st Place - Art Competition 2000

Profile

I am 6+ years experienced civil engineer who has involved in construction industry in Sri Lanka and Maldives. Sound theoretical background, practical knowledge along with continues professional development have transformed me as a confident, energetic, motivated and resilient individual in the industry. Structural engineering, project management, construction and site management are key aspects of my expertise.

Education

2009 - 2014	University of Moratuwa, Moratuwa, Sri Lanka Bsc (Hons) Engineering Degree Specialized in Civil Engineering
2008	Bandaranayake Collage, Gampaha GCE A/L - 2008 Passed with 3 A passes , Physics stream

Professional Experience

March 2020 - Present Project Manager	Valiant Construction (pvt) Ltd Urban Gateway Project at Kottawa, Sri Lanka. Construction of 30 luxury housing units for Kelsey Homes Project Value - Construction Cost - USD 2 Million (LKR 354 M) <ul style="list-style-type: none">• Delivering the project’s objectives within scope, schedule, cost and quality.• Identify, monitor and appropriately manage project risk and liaise with broader team to communicate issues and resolutions.• Manage project deliverables, progress and performance.• Planning and monitoring of material procurement process.• Control and manage project closure/delivery and any associated follow up or corrective actions.• Consult proactively and regularly with all functional area managers to ensure strategies and timelines are aligned.
February 2019 - March 2020 Project Engineer	George Steuart Engineering (pvt) Ltd VTC Project at Rathmalana, Sri Lanka Construction of vocational training center under World Bank and ADB funds for Ministry of Skills Development and Vocational Training. Project Construction Cost - USD 1 Million (LKR 154 M) <ul style="list-style-type: none">• Overall management of the project as the team leader• Effectively manage work, material and cost resources to control the project cost, quality and progress.• Project quality control and assurance.• Planning and monitoring of procurement schedule.• Coordination with client, consultant and other authorities• Ensuring works are being performed safely.• Preparation of drawings and documents.• Selection of materials, suppliers, sub-contractors• Provide technical solutions to resolve complex circumstances.
September 2018 - January 2019 Project Manager	AECOM Raffles Devanafushi Luxury Resort Refurbishment project, Gaafu Alifu Atol, Maldives Project Value - Construction Cost - USD 20 Million <ul style="list-style-type: none">• Planning and execution of beach and water villas, BOH and FOH work.• Project quality control and assurance.• Planning and monitoring of procurement process.• Collaborating with designers and subcontractors to ensure quotes are competitive, complete and accurate.• Reviewing of drawings and documents.• Worked closely with consultant to convert client enquiries into viable renovation project
