

**The American Society of Civil Engineers  
Florida Section Board of Directors Meeting  
Saturday, October 4, 2014  
University of Central Florida Student Chapter Update**

Since the last Board of Directors Meeting, we have started the Fall semester and have already had many different experiences with more on the way. These experiences include three general meetings, various social and community service events, and club recruitment. ASCE-UCF is working hard to make sure this year is even better than the last.

So far, ASCE-UCF has recruited 53 paying members, 13 of which are underclassmen. So we are already more than half way towards our goal of 100 paying members and 25 underclassmen. In our three general club meetings, ASCE-UCF has had guest speaker appearances from Atkins Engineering and RS&H. We are aiming to move closer to our 100 member goal by having three more general meetings within the Fall semester. One of these three upcoming meetings will consist of a resume review by professionals involved with the East Central Branch of ASCE.

In order to build a better team environment amongst our members, ASCE-UCF has held social events which included a barbecue on UCF campus and tailgating for UCF's first home football game. Also, we have had our first community service event which was a Habitat for Humanity build. We look forward to finishing off the Fall semester strong and entering the Spring semester ready for annual conference preparation.
