

**The American Society of Civil Engineers  
Florida Section Board of Directors Meeting  
Saturday, January 10, 2015  
University of Central Florida Student Chapter Update**

Since the last Board of Directors Meeting, we have finished the Fall semester and have already had many different experiences with more on the way. These experiences include two general meetings, various social and community service events, and club recruitment. ASCE-UCF is continuing to work hard to make sure this year is even better than the last.

ASCE-UCF has recruited 66 paying members, 17 of which are underclassmen, in the Fall semester with more to be expected in the Spring semester. In our two general club meetings, ASCE-UCF had a guest speaker appearance from Garney Construction and a resume review with multiple civil engineering professionals. We are aiming to finish the academic year strong with more general meetings in the Spring semester and more recruitment.

In order to build a better team environment amongst our members, ASCE-UCF has held social events which included tailgating for UCF's home football games, a dinner at Buffalo Wild Wings, and a paintballing event. Also, we have had community service events which included a teach-in at a local elementary school. We look forward to starting the Spring semester strong and preparing for the 2015 Southeast Student Conference.
