AEI DC MEMBER NETWORKING EVENT

TYSON'S BIERGARTEN

8346 Leesburg Pike Tysons, VA

WEDNESDAY, APRIL 17

5:30 - 8:00pm

TICKETS ARE \$10

Eventbrite or Venmo @AEI_DC

*One drink and finger
foods are included.*

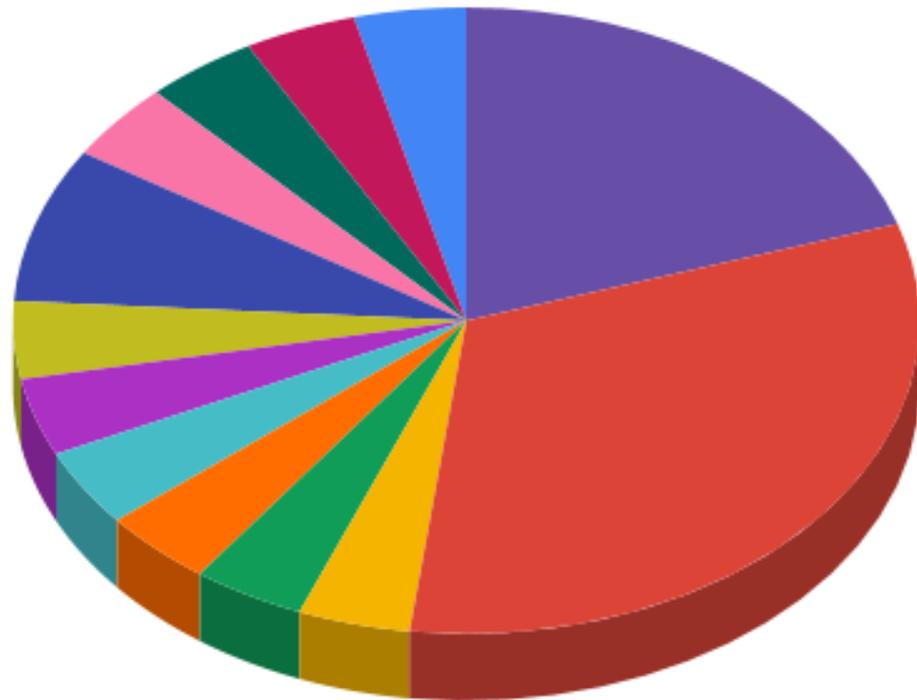

The Architectural Engineering Institute is working towards starting an AEI DC chapter and would like to kickoff the effort with a networking happy hour and membership drive at Tyson's Biergarten! This is a great opportunity to meet other members interested in starting this new chapter. Everyone is encouraged to bring any professional in the building industry and provide recommendations for programs and events they would like to see with this new chapter.

Architects, Engineers, Facilities Managers, Building Owners, anyone in the building industry are welcome!

Companies in Attendance

- Smithgroup
- DAVIS Construction
- WJE
- Toll Brothers
- A+F Engineers
- HGA
- Summer Consultants
- WSP
- Walter P Moore

Goals

- To take advantage of the opportunities that a large local building industry can provide to the growth and development of AEI Chapter members.
- To create networking opportunities between different disciplines and companies.
- To help train and grow younger members by connecting them with experienced members and by creating more opportunities to see different areas of the industry.

WHAT ARE COMMITTEES?

ASCE's National Capital Section operates several volunteer-run Committees responsible for administrative, technical, outreach, and special-project functions. Administrative committees include: Logistics (Manages logistics and the registration desk for Section-level meetings), Technology (Manages administrative email accounts, Website, Online storage of documents) and Newsletter (Publishes 8-issues of the acclaimed ASCE-NCS eNewsletter in PDF format). Technical committees include: Construction, Geotechnical, History & Heritage, Structural, Sustainability, Transportation, , Water Resources, and Younger Member Forum. Outreach committees include: Communication (Sends newsletter, event registration, and volunteer opportunity communications); Volunteer (Manages Engineer's Week, Life Member). Special Project committees include: Centennial Celebration, DC Infrastructure Report Card, Boundary Stones, and other special projects the Section takes on. As a member of this Section, the path to a leadership position on the Board of Directors is through active participation in our committees. Should you be looking for ways to expand your management and leadership skills, consider joining or leading a Committee. You will find the contact information for our current Committee Chairs under the Contact Us menu.

Committee Questions

- Will ASCE provide a set of bylaws to an AEI DC Chapter?
- Would we receive any funding to help start the chapter?
- How does the ASCE NCS Chapter generate funding?
- What does ASCE need from us?
- What can ASCE help us with?
- What is the timeline of events for starting a chapter?
- What are the goals and opportunities that ASCE NCS provides to its members?
